VOLUME 22, NO. 51 — CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA — FRIDAY, JUNE 22, 1917

Cool Drinks

Applju — Is the pure, unfermented juice of big red and golden apples. It is light—sparkling—clear. An aid to health and appetite, a drink for the year round. Take a few bottles with you on your next outing trip.

Loju—juice crushed from big ripe Oregon Loganberries.

Doles—pure pine-apple juice. All good healthful drinks for hot weather—10c up.

Local and Personal

THE RED CROSS NEEDS YOUR MONEY.

Men's and Boy's Elk Skin Shoes, Laces, Polish, Cleaners. Shoe repairing. E. E. SOWER.

Fred Bohrman has joined the auto drivers, having recently received a new car.

Claude Gard and family went to Santa Cruz Monday to spend the week by the sea.

For rent: Modern 5 room cottage close to school. Inquire of D. H. Cramer.

Mr. Herbert Duncan was home from Gazos-by-the-Sea for the week-end with his family.

Miss Bernice Lloyd left today for Klamath Falls, Oregon, where she will visit her sister, Mrs. Floy Morris for a part of the summer.

Mrs. J. C. Maxon and daughter, Miss Mildred arrived from Corning, Kansas, for a visit of several weeks with their relatives at the hotel.

Mr. Freeman Butts and family were visiting Grandpa Butts Friday to Sunday, and went with him to the Minnesota Picnic at Alum Rock park Saturday.

Mr. J. F. Duncan and Misses Marion, Alice and Elizabeth will go to Capitola tomorrow to spend the week-end. They expect to return via Gazos Monday.

Mrs. A. B. Townsend and children spent last week at Capitola. Dr. and Harold accompanied by Mrs. J. F. Duncan and Johnnie went over Monday to spend this week with them.

J. W. Fish and family were down from Mountain View Saturday to see the Firemen Show. Jack was so well pleased that he was dickering with some of the comedians to assist in a show at his town later.

The members of the local Masonic lodge and ladies are to be the guests of the lodge at Mountain View this Saturday evening. The party will leave Campbell between 6:30 and 7:00 planning to be there not later than eight o'clock when the fun begins.

Theo. Beardsley went to Merced last week to work with his brother, Allen, during the summer. Allen Beardsley and Warren Macey have purchased the 100 acre ranch near Merced which they leased last year. The principal crop is figs and prospects are good for this year.

Show A Success

The Firemen's Show held at the new auditorium Friday and Saturday evening was a big success and considering the rush of the social whirl during this season of the year the financial result is gratifying. The total receipts were $130.

The solo "Hail to America" by Stephen Merrill in his "Jack Tar" costume was an excellent curtain raiser and at the unfurling of the big flag the applause was doubled. The ventriloquistic stunt by E. E. Lanphear and his assistant, "Hear-hear," proved a real novelty and an encore was insisted on. Dr. W. I. Merrill and E. E. Lanphear worked a comic "Goiman" duet with several local hits ending with a real scream, the "anaesthetic dance with solo accompaniment.

The vocal solo "The Storm Fiend" by Ernest Barron was well received. The setting of the second part was a summer garden with serving tables and waiters, in which part the general minstrel idea was carried out with the usual jokes and local hits, the program following as given last week. The recitation by W. S. Shelley was a winner as his pieces always are. Ralph Stubbe, one of the rising Carusos of the vicinity, gave several songs much to the entertainment and pleasure of the audience.

The boys wish to express their appreciation to the patrons and all who took part. Special credit is given Mr. Jan Kalas who directed the Glee Club, Mrs. Claude Gard and Miss Merna Sawyer, accompanists, Ed. and Louis Genasci for their electrical work, Guy Shepherd and Leonard Smith for their stage assistance.

With the funds it is planned to install four new standard hydrants in the business section and remove the present ones to the outskirts of town.

Teachers Graduate

In the large graduating class at the San Jose Normal yesterday there was a strong representation from Campbell. Those completing in the household arts departments department were, Misses Clara Peterson, Adah C. Nelson and Olva Curry: in the regular course, Misses Marjorie Duncan, Catherine Cooper, Nanette Ellison, Hazel Mitchell and Bernice Lloyd.

The proximity of Campbell to the Normal and colleges makes it one of the most desirable residence sections of the state.

In Memoriam

The last rites for the late Ruel K. Thomas were held at two o'clock Friday afternoon from the residence. The services were conducted by the Rev. W. H. Lloyd assisted by the Rev. G. E. Atkinson and the Rev. W. E. Eckles. The music was furnished by the Methodist choir which sang "Nearer My God to Thee" and "More Love, O Christ, to Thee." The Masonic services were conducted by Master C. E. DeSelle assisted by the Brethren. From the house the funeral procession went to Oak Hill cemetery where the Morning Light Lodge I. O. O. F. had charge of the interment service. The pallbearers were: Ralston Alison, B. O. Curry, G. S. Robson, C. A. English, W. C. Stelling and J. E. Glendenning: honorary, J. C. Ainsley, C. N. Cooper, J. F. Duncan, G. E. Hyde, I. W. Snow and W. H. Roberts. Mr. Thomas was born at Camden, Maine, May 25, 1853, and from the age of 14 when he became the head of the large family his life has been one of earnest worth while work. He was married in 1878, and moved to California in 1880, coming to this valley in 1882. In 1884 he was married to Miss Ida M. Whybark, moving to Campbell in 1887 since which time he has been closely allied with the larger local business concerns and projects. He was one of the founding directors of the bank, a prominent director and manager of the Campbell Fruit Growers Union and a promoter of the Campbell Water Company.

He was always an enthusiastic worker for the local schools and for some years past a member of the Union High School board. His judgment was sought on many subjects and his influence was felt in all activities of the community and his demise is a loss to the entire county.

The deceased is survived by his wife, Ida M. Thomas, a son, Rev. G. W. Thomas, of Butte, Montana, a brother, E. Thomas of Santa Rosa, and sister, Mrs. Clara Ray of Los Angeles.

Honor Roll

First Grade:—Hadassah Withey, Milton Wolfe, Emma May Powell, Harold Hocking and Miriam Blaine.

Second Grade:—Levant Baldwin, Bobbie Burns, Alfred Furtado, Annie Musladin, Stephen Merrill and George Mattos.

Third Grade:—Francis Sorissi, Russell Templeton, Margaret Pardee, Annie Abinante, Eva Robinson, Johnnie Musladin, Anthony Bargas, Ellis DeSelle, Lawrence Futardo, Harold Cramer, Bernard Robson and Lucille Gard.

Fourth Grade:—Ruth Powell, Clara Soares and Lawrence Ferro.

Fifth Grade:—Irene Preston, Ada Smith, Wilma Smith, Astred Carlson, James Taylor, Marie Purmort and Helen Beal.

Sixth Grade:—Mabel Pardee, Irma Young, Pauline Baker, Henrietta Toles, Pauline Blaine and Marion Smith.

Seventh Grade:—Leah Johnson, Irene Toles, Edward Day, David Strom, Russell Crawford and Mary Soares.

Eighth Grade:—Margaret Blaine, Lucile Strong, Merle Bibb, Geo. Benner, Earl Thompson, Carl Sharp, Ethel Tuter, Elmer Cornelius and Georgia Cochran.

George E. Hyde & Co., Make Extensive Improvements

The plant of Geo. E. Hyde & Co., has been undergoing improvements both in dried fruit and canning departments during the past months. These packers have affiliated themselves with the California Prune & Apricot Growers, Inc., and in keeping with this change have remodeled their plant in order to increase its output. They expect to pack at least 100 cars of Dried Prunes besides several cars of Apricots, and are figuring on two cars per day. With the enormous crop of green Prunes in sight they expect also to dry the same for the account of the Prune & Apricot Growers' Association.

Machinery has been added to the Cannery which will enable them to put out nearly twice as much canned goods as in 1916. An automatic slicer, exhaust box, capper, scalder and syruper have been added to the cannery equipment, which will enable them to handle in the neighborhood of seven hundred tons of peaches, besides apricots, pears and prunes.

This company will have an extra long season as it will start canning apricots early in July, followed by pears and peaches and immediately after the peaches, the packing of apricots and prunes, which will carry the season beyond Christmas.

Register with us immediately for long season's work. GEO. E. HYDE & CO.

A Talk on the Subject of Butter

THE HIDDEN QUALITY

It must taste good—you make this demand of the butter you purchase, invariably. Yet a brand of butter that you are pleased with at first, may prove disappointing finally through the lack of one important merit—a merit as essential as good flavor.

The distinctive flavor of good butter, as you may know, is due to certain microscopic vegetable organisms (bacteria) of a friendly nature. But, unfortunately, other forms of bacteria, unfriendly in their action, tend to develop in butter. It is these "unfriendly" bacteria that produce that well-known and disagreeable "strong" flavor characteristic of poor butter. In standard creamery stock, such as our Meadow Grove and Isleton brands, the growth of bacteria is retarded by the process of pasteurization. All butter so processed, however, is not equally good, because much depends on the original proportions of "friendly" and "unfriendly" bacteria in the cream. After pasteurization, which could not eliminate all the bacteria in butter without also destroying its flavor, creamery butter is tested, and graded according to its bacterio content. Comparative absence of "unfriendly" bacteria, as shown by this test, determines the final merit of butter—its **keeping qualities.**

Be assured that under Meadow Grove and Isleton labels is packed only butter that has stood the test for "fresh extras"—the original **fine flavor** of these brands will be preserved by their **keeping qualities** until you have used the last morsel.

REALLY WENT UP SALT RIVER

Action of Defeated Office-Seeker in Kentucky Gave Rise to Saying Now Used All Over Country.

The people of the United States have always been prone and quick to catch a happy or unhappy remark or phrase in politics and to make the most of it to the advantage of one or the disadvantage of another party, observes the Christian Science Monitor.

Some leaders are happy even in their most casual expressions. Lincoln was one of these. Grant was another. It used to be said that the difference between Lincoln and his greatest general was that, while one dropped pearls of speech, the other dropped the pearls of silence. Nevertheless, when Grant said that he proposed to "fight it out on this line if it takes all summer" and when he said, "Let us have peace," he furnished his friends with political campaign material of the first order. They were sayings as simple as "With charity toward all; with malice toward none," or "You can fool some of the people some of the time, but you can't fool all the people all the time," and because they were simple they were remembered.

Once, a long time ago, a defeated office-seeker, in order to "get himself together," left home as soon as he became aware of the result of the polls. A friend, inquiring for him a little later, was informed by a member of his family that he had gone up Salt river. Salt river was and is a modest little stream that rises in the hill country of Kentucky, and after flowing through a more or less picturesque district for about a score of miles, empties into the Ohio. It was in those days a good fishing creek, and the kind of stream a jaded and disappointed politician might naturally fancy. There was not a thing wrong about his excursion. Yet his political enemies got hold of the remark that he had "gone up Salt river" and used it to imply that this meant the end of his public career.

The saying spread from Kentucky into other states and for more than half a century it has been used to express the idea that a politician has been "driven to the woods" for good. "He's gone up Salt river" has come to mean, in fact, that a politician has "been put out of business," has been so badly beaten that he cannot "come back," "has seen his finish."

CHINA'S "BATTLE-AX" COINS

Small Models of Various Utensils Used as Medium of Exchange in 2255 B. C.

Haskell Oriental museum at University of Chicago has recently been presented with a remarkable collection of coins by Jacob Spelcher of Shanghai, China. Chinese coins, medals and amulets to the number of 844, arranged in historical sequence, are supplemented by coins of Annam and Korea, with a few from the old regime of Japan. Altogether, 1,068 specimens are included. The donor was engaged in their collection some twelve years in China. After being on exhibition for three or four years at the Boston Museum of Fine Arts, they are now permanently located in Chicago.

Our adjective "pecuniary" still bears witness to the cattle which served early Rome as measures of value. In China likewise, but far earlier, actual commodities had constituted the first medium of exchange. The Chinese, however, seem to have preferred metal objects, especially battle axes and knives. As government credit became established, it was found more convenient to coin small models of these utensils. The exhibit begins, then, with "battle-ax" coins, some of which date back traditionally to the period 2255-1122 B. C. Even with the adoption of a later date this would probably give China first place in the study of numismatics.

"Knife" coins form an interesting group. Their round handles, with holes in the center, two of which are distinguished by a square perforation, are supposed to have furnished the pattern for the round cash with square holes so regularly used later. Other peculiar shapes are "bridge" and the pebblelike pellets called by the Chinese numismatists "ant" coins. All these oldest, most brittle copper specimens are mounted in handsome trays of camphor wood. The largest object in Mr. Spelcher's collection is a magnificent medal with dragon decoration, bestowed as a reward for loyalty by the ruler, Wu Tsung (1525 A. D.).—Boston Transcript.

A Radical Cure.

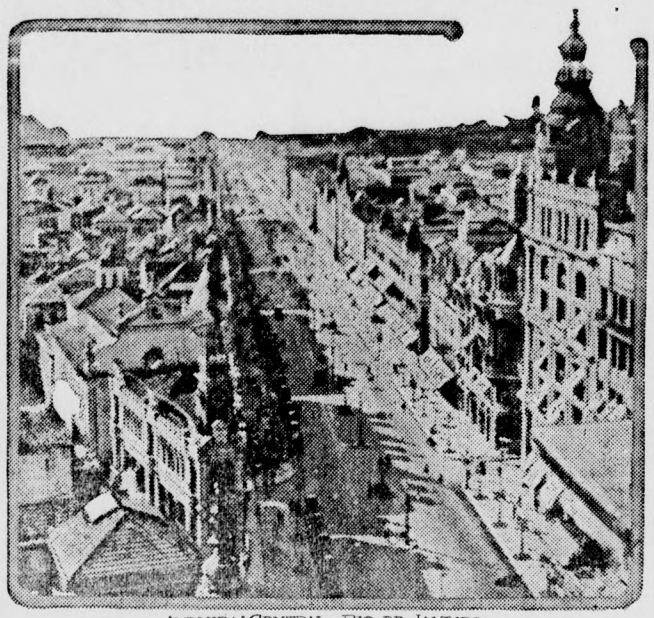
Two women traveling in the same passenger coach could not agree about the window, and finally appealed to the brakeman.

"If that window remains open I shall catch my death of cold," objected one, to which the other promptly replied: "If it is closed, I shall smother to death."

The brakeman scratched his head in perplexity, until an old gentleman sitting near by proposed:

"Open the window until one freezes to death, and then close it until the other smothers to death, and then the rest of us can finish our journey in peace."—Topeka State Journal.

Beautiful Rio de Janeiro



AVENIDA CENTRAL, RIO DE JANEIRO

RIO DE JANEIRO is the cleanest and most beautiful city in the world, according to the testimony of recent visitors, including Theodore Roosevelt. With more than a million population it has no slums such as disfigure and disgrace even the more progressive North American cities. Within its wide municipal area it has more asphalted streets than any other city can boast of, and at night its prodigal illumination gives the right to take from Paris the title of the "City of Light." A great thriving seaport, a wonderfully beautiful tropical capital, Rio de Janeiro visualizes the remarkable transformation which has taken place in Latin-America, and particularly in Brazil, within the past 20 years. It is more than simply a justification of republican government in Brazil; it carries a rich promise for the development of South America.

A few years before the beginning of the present century, travelers described Rio de Janeiro as a fever pest spot. It was under the empire one of the most unhealthful cities of South America. The sewerage system was poor and there was an almost utter lack of sanitary and hygienic regulations. The city was never entirely free from the dread scourge of yellow fever, and smallpox and tuberculosis made frightful ravages among the population. Malaria and other fevers also exacted a heavy toll of life. Today, yellow fever, bubonic plague and smallpox have been practically stamped out, and an intelligent war against the anopheles mosquito is doing the same creditable work for malaria, which is rapidly disappearing.

One of America's Oldest Cities.

Rio de Janeiro is one of the oldest cities of European settlement in the western hemisphere. Discovered in 1502, the first century of its existence was marked with troublous times with the hostile Indians before the Portuguese settlers were able to establish themselves in security. They also had to maintain themselves against the French, the Dutch and the Spanish and many times Portuguese ascendency hung by a thread. In 1711, the French captured the city by assault, holding it until a heavy ransom was paid. This ended all attempts to wrest Brazil from the hands of her discoverers. About this time occurred the discovery of gold and diamonds in Brazil, a fact which increased the importance of Rio de Janeiro and Bahia and made Brazil an enormously rich colony which was exploited to the limit by the home government. In 1807, as a result of the Napoleonic wars, the seat of the Portuguese government was transferred from Lisbon to Rio de Janeiro and Brazil became an empire which lasted until the successful republican uprising in 1889.

Claims World's Largest Harbor.

The bay of Rio de Janeiro is probably the largest, safest and most beautiful natural harbor in the world. It is 17 miles long and 15 miles wide, with a coast line of 45 miles. The entrance is only one mile wide between imposing granite mountains, and there are numerous islands. A granite quay, two and a half miles in length, constructed at a cost of many millions of dollars, greatly facilitates shipping. The harbor also has a 100-ton floating crane and a large floating dry-dock. In former years the district fronting the quay was a section of narrow congested streets, but under the republic the district has been transformed into a commercial section of wide streets and well-built business houses, comparing more than favorably with the equipment of North American harbor fronts.

Rio de Janeiro extends nine miles from north to south and ten miles from east to west along this beautiful harbor. To a foreign tourist coming up the bay at sunset, perhaps the best time for a stranger's arrival, the city is at first unseen, its dim outlines being in the shadow thrown by the gigantic figure of the sleeping Titan whose feet are composed by Sugar Loaf mountain with his head and body built up of the Tijuca and adjoining mountains. Away in the distance on the north side of the bay, dominating everything else, rise the gracefully slender pinnacles of the Organ mountains with the "Finger of God" conspicuous among them. As the ship steams up the long and deep channel the great city slowly breaks into view and masses and crescents of light spring into sight. The encircling city glows and radiates.

Time to See Rio at Its Best.

It is between sunrise and eight or nine o'clock that Rio is seen at its best, at least from the steamer's deck. The best simile is that of a pearl which gradually displays its orient to the beholder. Gray gives place to rose, and rose and celestial blue. It is as if Almighty God had breathed on this favored spot and bidden it come forth endowed with more natural beauties than any other on earth. The city rises in terraces, not in huge masses of houses hiding the rock, as in Lisbon, but in fairylike groups of habitations, half lost in the verdure of the tropical vegetation. On the sea level the greater part of Rio stretches in a vast crescent turned toward the northeast, broken here and there by spurs of the mountain range at the back, throwing out gently rounded foothills, covered to their tops with feathery palm-tree ferns and bamboos. In the middle of the crescent the suburbs stretch away inland for a great distance.

In all its essentials the city is now an unusually good example of one of the world's great capitals. The management of traffic by the police, the work of the street-cleaning department, the electric lighting, the excellent asphalted pavements, the trolley lines, the handsome buildings, public and private—all these things and hundreds of others could be instanced as showing that Rio de Janeiro is as progressive as any one of our great cities in the United States. In some points she is distinctly ahead of us—in the municipal theater, for instance, and in much that has been done for beautifying the city. Many of the streets are lined by double rows of the stately royal palms, making the finest of all imaginable colonnades. The long drive along the brave bay front is something quite unique. The beauty of the city is no more evident than in business development. Rio is an old city, but of late years it has gone ahead, and is now going ahead as fast as any young city in the western United States, and its prosperity rests on a sound and healthy basis.

Money Lavished on the City.

The far-sighted statesmen of Brazil have spent millions of dollars in making Rio beautiful and sanitary. They transformed the former narrow and congested streets into wide avenues which rival the historic streets of Europe and the United States. Groups of beautiful public buildings have arisen, among them the Monroe palace dedicated to the memory of the president who enunciated the doctrine of America for the Americans. The old Imperial palace has become the National museum, and among other fine buildings are the city hall, mint and chamber of deputies, etc. The Botanic gardens are especially interesting, containing rare exotics from all parts of the world. The School of Fine Arts contains many pictures of the old masters, and the National library has some 300,000 printed books and half a million manuscripts.

Of those things which make a great and progressive city Rio has its full share and today is making the most of them. Its future is rich in promise of even greater development. It will grow as the nation grows and every indication points to the marvelous development of Brazil's resources during the coming century. With 22,000,000 people Brazil is today, next to the United States, the most populous of American countries. It is capable of supporting a population of 200,000,000 and its natural resources are simply enormous with the greater part of its territory yet untouched. With the construction of more railroads, the harnessing of limitless water power, the improvement of ports, the establishment of new industries, the extension of agriculture, the opening of mines, the exploiting of timber, and with the mastering of vast jungle areas, Brazil is destined to take high rank among the nations of the earth, and with the destiny of Brazil is bound up the future of Rio de Janeiro.

FORESTS SURVIVE THE AGES

Flora of Australia Different From That of All Other Countries in the World.

One readily understands why the Australian loves his trees. The groves of giant eucalyptus form pictures never forgotten, and the scent of the wattle brings a homesick feeling like the smell of sage to the Westerner.

The flora is not only beautiful, it is unique and has no counterpart in other lands, observes the National Geographic Magazine. Of the 10,000 species of plants most of them are purely Australian and are unknown even in New Zealand. The general impression one gets of Australian forests is their total unlikeliness to anything seen elsewhere. The great forests of timber trees are not damp and shaded and all of one species, but are well lighted and filled with other forests of shorter trees; in places the woods consist of large, widely spaced trees, surrounded only by bunch grass, and even in areas where water is not to be found on the surface for hundreds of square miles true forests of low trees are present.

Forms which may be recognized as tulip, lily, honeysuckle and fern take on a surprising aspect. They are not garden flowers, but trees, and the landscape of which they form a part reminds one of the hypothetical period antedating our own millions of years.

The trees are indeed those of a bygone age. In America and Europe shadowy forms of fossil leaves of strange plant species are gathered from the rocks and studied with interest; in Australia many of these ancient trees are living. The impression that one is looking at a landscape which has forever disappeared from other parts of the world is so vivid that the elms and maples and oaks in some of the city streets strike a jarring note. The transition from Jurassic to modern times is painfully abrupt.

Hold to Your Dreams.

Isn't it possible that the only thing which makes it possible for us to perform the daily drudgeries of life is the hope for better things which blooms in our hearts?

Hope is romance? Ambition is romance! All the fine, true inspirations of life are romantic. Romance leads to achievement, unless it blossoms in the mind of a lazy, shiftless creature who is incapable of action. The man who leads a forlorn hope is romantic. The hero who gives his life fighting a dread disease to which he succumbs, but against which he has insured humanity, is romantic. Romance is the thing which makes it worth while for men to sacrifice material comforts and die on strange fields of honor.

In a materialistic world where we have to deal with the facts of earning our livings and fighting for place and position, the thing which lifts us above blind instinct is romance. Cherish your dreams, for they give you a glimpse of beauty and make you willing to struggle over cruel mountains and harsh plains to the pot of gold at the rainbow's end. Dreams give respite from dreary reality and urge on to all that is big and fine.—Exchange.

Courtesy in the Home.

Why should daily life together destroy the mutual consideration and courtesy a man and woman show before marriage, which they would continue as mere friends? If husband and wife, no matter how much they love each other, no matter at what close range they live, would strive to grant each other the treatment which ordinary good breeding exacts, would respect one another as individuals, not as household furniture, would foster mutual forbearance and ordinary politeness in "little things," then the divorce courts would be cheated, children would suffer fewer violations of their inalienable rights to home and harmony and there would be less cynical complaint of "something rotten in the state of matrimony."—Mary E. Walter, in the Chicago News.

Flower Language.

The earliest nations had their flower language, or florigraphy, which was intimately connected with mythology, religion and national life. Among the most commonly known symbolic meanings attached to certain flowers are the following: Oak, patriotism; bay, poesy; myrtle, beauty; olive, peace; ivy, revelry; rose, love; apple blossoms, preference; buttercup, riches; anemone, frailty, anticipation; dandelion, coquetry; daffodil, unrequitted love; lilac, fastidiousness; narcissus, self-love; marigold, contempt; goldenrod, encouragement; lily, majesty, purity; calla, magnificent beauty; forget-me-not, true love; poppy, oblivion; amaranth, immortality; gentian, virgin pride; geranium, deceit; foxglove, insincerity; hyacinth, sorrow; honeysuckle, fidelity; pansy, thoughts; heliotrope, devotion; sweet william, gallantry; candytuft, indifference; cowslip, youthful beauty; white violet, modesty; snowdrop, friendship in need.

A Complete Job.

They were a very tired battalion and a very Cockney battalion, and when they spoke to the members of the battalion who had met them their speech was rich with expletives.

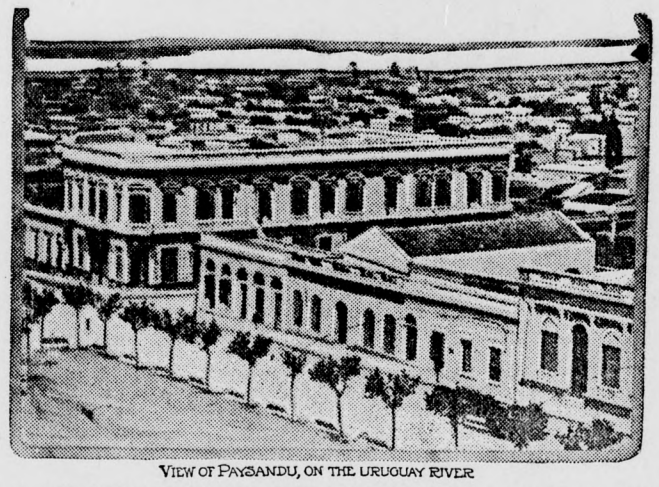
Said a sympathizer of the other battalion:

"You look jolly tired, mate. 'Ave yer bin far?"

The spokesman of the weary ones answered shortly and sweetly:

"Bin fer! Why, we've walked over nearly the 'ole o' France, and wot we ain't walked over we've got in our sandbags."—Tit-Bits.

PLAINS OF URUGUAY



VIEW OF PAYSANDU, ON THE URUGUAY RIVER

URUGUAY is small and wealthy; and if the word "intensive" may be applied to its pastoral activity as it is in some of the world's thickly settled agricultural countries like Japan or Denmark, the Uruguayan republic is not disappointing. Indeed, as the stranger travels over the undulating plains the sight of such vast numbers of live stock in every direction is really astonishing, writes William A. Reid in the Bulletin of the Pan-American Union. Within the bounds of the country, an area slightly larger than the five New England states of North America, the people have raised and gathered something like 35,000,000 domestic animals. The products derived from this vast herd, together with the growing agricultural development enabled the country to send to other lands last year more than $76,000,000 worth of food and clothing materials.

The per capita distribution of money in Uruguay is given at about $25, or twice that of Roumania, twice that of Greece, more than three times that of Russia, five times that of Japan, or about the same as that of Belgium before the present troubles.

Uruguay being essentially a land of stock raising, has allowed agricultural possibilities to suffer until within recent years, and probably no factor in the latter's development is accomplishing better results for the country than the government's agricultural farm, La Estanzuela, located 140 miles northwest of Montevideo in the Department of Colonia. This farm contains over 1,000 acres and the experiments conducted there include trials of all crops that seem suited to the soil and climate of Uruguay.

The agricultural influence and training of Uruguay's young men are of course more particularly noted when one visits the rural districts. One division of the agricultural farm conducts experiments in agronomic science; and the growing of seeds for sale or otherwise is gradually placing new varieties at the service of the farmer. For instance, the distribution of 40,000 bushels of seed wheat in 1915 to 1,300 planters on easy credit terms is showing pleasing returns in agricultural production. The wheat distributed was of improved varieties and was thoroughly cleaned by machinery before being placed in the hands of the farmers. In addition to seed wheat the government distributed nearly 4,000 bushels of other selected seeds.

Fruits and Sheep.

In northwestern Uruguay, in the provinces of Paysandu, Salto, Artigas, etc., I was surprised to see vast areas covered with growing fruits. More than 2,000 acres, I was informed, are under viticulture. In a single year there were gathered 25,000 tons of grapes. Orange groves also cover thousands of acres and the product is rapidly growing in favor throughout the country.

The sheep that one meets in traveling across Uruguay are amazing in number. Often the hills within a radius of miles are covered with grazing herds—they seem to fill every hill and valley. In fact the sheep statistics show that there are 27,000,000 within the bounds of the country, or nearly 27 sheep and lambs for every inhabitant. In 1915 the value of wool from this vast flock brought $20,000,000, thereby returning approximately $20 for each person in the republic.

In rural Uruguay the crossroads store possesses a pleasing interest for the foreign traveler. The usual building is a modified type of the wall and patio structure, the whole of course covering much more ground than the average city house. A central opening is large enough to admit horses and wagon and the vehicle can easily be turned around in the patios of some of these rural stores; the materials of which the buildings are constructed are often stone and stucco, and the smooth outside is coated with a cheap bright-colored blue or other paint of pronounced color. A few trees, hitching posts, a score of cowboys, horses and a tented wagon or two are usually in evidence. To give animation to the scene there are numerous gauchos, or cowboys, sitting in groups or walking about the little settlement. These splendid horsemen of the plains when mounted are usually on a gallop and they cover miles without apparently exhausting their steeds.

The dress of the Uruguayan cowboy at once attracts the stranger. Here is a description of one of the many costumes worn by these plainsmen as I saw them gallop into Paysandu; it is typical of the costume donned for special occasions or fiestas: The trousers are a bright yellow, very baggy, of dimensions the stranger would consider three sizes too large for the wearer. Boots reach to the knees, a broad red belt, a soft shirt of gray, red handkerchief tied loosely about the neck, broad-brimmed yellow felt hat turned up in front from long riding against the wind, heavy spurs that clink at every step or that at times drive the steed forward at lightning speed. Truly a picturesque figure of physical fitness for any task in the care and management of the "hoofs and horns upon the hills."

Other features of rural progress noted in various regions of the republic are the unusually wide reservations made for highways. Wire fencing is becoming common, and in many cases it incloses a roadway recently opened and which will eventually be improved and made usable even during the season of heavy rains. Today such dirt roads are several times wider than the average highway in the United States, and the evident reason seems to be that many oldtime Uruguayan carts are still pulled along these roads by long strings of oxen; when the roads are muddy the team winds from side to side, requiring considerable space.

As a complement to these new outlines of future highways, and to many miles of completed roads upon which large sums have been expended, is the modern steel bridge. In past years the wagon team traveling toward Uruguayan markets was forced to ford watercourses that lay across the route; today in numerous cases a substantial bridge spans the stream and thereby greatly facilitates all kinds of travel.

Automobiles Becoming Common.

Still another feature of progress is the automobile, which is fast becoming a common and necessary vehicle even on the far-off ranch. The new bridges and increased attention to road building are, of course, having a stimulating effect on motor transportation and on cross-country automobile racing, the latter a pastime that has grown into favor during recent years. The federal appropriation for the fiscal year of $300,000 for highway construction and the improvement of existing roads, which is typical of former large appropriations for similar purposes, will add many more leagues to Uruguay's gradually increasing highway mileage.

The visit to Uruguay is not complete unless one has inspected the activities at Fray Bentos on the Uruguay river. This is the nation's greatest workshop, for in the meat-packing plants located there approximately 2,500 cattle in normal times are turned into extracts daily. By reason of this enormous industry Uruguay claims "the greatest kitchen in the world," and those of us who have visited the enormous plants are not inclined to question the assertion.

The people of Uruguay form a cosmopolitan population, and in recent years immigration has gradually added to their number. More than 62,000 Italians, 27,000 Brazilians, 18,000 Argentines, 8,000 French, and a thousand each of Swiss, English, Germans and North Americans have arrived within the borders of Uruguay to find homes and to enter the varied lines of business activity typical of the country.

The citizens of Montevideo must be numbered among the best-dressed people to be found in South America; they are hospitable and many are charming, while the fame of the beauty of the ladies has spread afar.

Is Proud of It.

The Kansas City Star recently asked for the man who would admit that he played with dolls when he was a boy. P. Casper Harvey not only admits but is inclined to boast that he reared a family of three dolls, named respectively Barzillia, Jessie May and Edna. Mr. Harvey says he has them yet and has a fight with his folks every Christmas to keep them from giving the dolls away.

Practice What You Preach.

Practice as much of religion as you talk, and then you have a full license to talk as much of it as you please.

MOTHERHOOD WOMAN'S JOY

Suggestions to Childless Women.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is the ability to correct sterility in the cases of many women. This fact is well established as evidenced by the following letter and hundreds of others we have published in these colums.

Poplar Bluff, Mo.—"I want other women to know what a blessing Lydia E. Pinkham's Vegetable Compound has been to me. We had always wanted a baby in our home but I was in poor health and not able to do my work. My mother and husband both urged me to try Lydia E. Pinkham's Vegetable Compound. I did so, my health improved and I am now the mother of a fine baby girl and do all my own house work."—Mrs. ALLIA B. TIMMONS, 216 Almond St., Poplar Bluff, Mo.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential and helpful.

Kill All Flies! They Spread Disease

Placed anywhere, Daisy Fly Killer attracts and kills all flies. Neat, clean, ornamental, convenient, and cheap. Lasts all season. Made of metal, can't spill or tip over; will not soil or injure anything. Guaranteed effective. Ask for

The Future of the Classics.

The languages and literatures of Greece and Rome will always remain attractive fields for students whose tastes and natural capacities are chiefly literary, and especially for men of letters, authors, and professional students of language; but it is certain that they are soon to cease to make a prescribed part of general secondary and higher education, writes Charles W. Eliot in the Atlantic. There are too many histories, too many new sciences with applications of great importance, and too many new literatures of high merit which have a variety of modern uses, to permit any one, not bound to the classics by affectionate associations and educational tradition, to believe that Latin can maintain the place it has held for centuries in the youthful training of educated men, a place which it acquired when it was the common speech of scholars, and has held for centuries without any such good reason. For this loss of status by Latin genuine classical scholars will naturally console themselves with the reflection that it has never been possible to give an unwilling boy any real acquaintance with the Latin language or any love of Latin literature by compelling him to take three "units" of Latin at school and a course or two of Latin in college.

The Easy Way to Heal Sick Skins

Resinol Ointment, with Resinol Soap, usually stops itching **instantly.** Unless the trouble is due to some serious internal disorder, it quickly and easily heals most cases of eczema, rash, or similar tormenting skin or scalp eruption, even when other treatments have given little relief. Physicians have **prescribed** Resinol for years. Resinol Ointment and Resinol Soap are sold by all druggists.—Adv.

Corridor as Revolver Range.

A long basement corridor, bounded on either side by brick walls, has been fitted up at small expense by the police department of Salem, Mass., as a revolver range. The total cost of making the alteration was but $35. Because of its convenient location, the members of the force have found it easy to keep up their revolver practice. The target end of the corridor was covered with sheet iron, over which planks were placed to prevent the bullets from rebounding. The lights were protected with sheet iron also. A plain wooden counter serves to hold the revolvers when they are not in use. When a marksman desires to inspect the target closely it can be drawn nearer on a wire which is stretched from one end of the gallery to the other.—Popular Mechanics Magazine.

tongues awake; Let all that breathe partake; Let rocks their si-lence break, The sound pro-long.
land be bright With freedom's ho-ly light; Pro-tect us by Thy might, Great God, our King.

In February, 1832, as the Rev. Samuel F. Smith was glancing through some children's books written in German, he ran across some music which he later found to be "God Save the King." He was much impressed and noticed that the words were very patriotic, but without endeavoring to translate or imitate them, he was led on the impulse of the moment to write the hymn, America. To his surprise on the succeeding 4th of July, Mr. Lowell Mason, a choir conductor to whom he had given a copy, first publicly introduced it at a Sunday School patriotic celebration at the Park Street church, Boston. Edward Everett Hale, then a little boy who had spent all of his 4th of July money on root beer and ginger snaps, stopped at the church on his way home and so was present at the first singing of the hymn, which is national enough to be called "America."—From Special Report, Library of Congress.

POULTRY NOTES

Be sure that all the brood and roosting crops have water-tight roofs and are in good condition generally for the season's work.

Be careful not to feed anything musty or moldy to the poultry, especially the youngsters, because mold spores cause canker and digestive troubles.

Remember to protect the early chicks, ducklings, etc., from dampness and chilling winds, for chills and resulting digestive troubles will cause trouble and losses.

When the nest of a sitting hen is fouled by breaking eggs or otherwise, take out the soiled material and put in fresh, clean straw or hay and wash the eggs in warm water.

There is no better food for little ducklings for the first three or four days than bread moistened with milk, in which a little fine grit and a little finely granulated charcoal is mixed.

If there are two males running in the same flock and they do not agree, it is best to keep one shut up one day and the other the next, so that only one accompanies the flock at one time.

Always keep a supply of head-lice ointment on hand and use it occasionally to protect the little chicks from these destructive pests. Head-lice ointment can be bought from most poultry supply dealers.

A good feed for little chicks is johnnycake baked hard and fed dry. The infertile eggs from the incubator or from under the hen, if they have been kept in a cool place, can be mixed in this cake before it is baked.

In feeding any kind of poultry, young or old, never give more at one feeding than will be eaten up in a few minutes, except when grain is fed in the litter, and in that case no more should be given than they will work hard to scratch out.

When hatching eggs in an incubator, those that are marked to indicate certain matings or certain parentage may be placed in small, covered, wire boxes or baskets at the time of the last turning, so that the record may be kept complete.

In order to get the best results in hatching eggs from ducks, the breeders must be fed some meat food. Most duck raisers prefer high-grade beef scraps, which can be mixed in the mash and make about 10 per cent of the mixture, sometimes more.

Statistical Notes.

Bolivia has a public debt of $20,715,180.

Rio de Janeiro last year ate 26,000,000 pounds of dried beef.

British Columbia cities have an aggregate public debt of $73,676,039.

Norway has 189,296 horses, 1,282,146 sheep, 229,981 goats and 221,146 hogs.

Odessa, Russia, last year sent 385,000 pounds of beet seed, valued at $31,738, to the United States.

Porto Rico will this year export more than 400,000 crates of pineapples, 90,000 boxes of grapefruit and 7,000 boxes of oranges.

Making Doors Attractive.

Doors often cause great inconvenience and worry to Mrs. Home Builder. Few of them, at best, are interesting in themselves, and many open awkwardly, taking up too much room in small places. In the latter cases the door may not be slit in two and swung from either side, so that it opens through the middle, but it can be split through the center and so arranged with hinges that one part doubles back against itself.

Panels decorate a door and add interest to it. Plaster casts are used quite frequently in this country when the Spanish idea of brass pieces for this purpose cannot be followed out because of added expense.

Great Army of French War Aviators to Become Mail Carriers When Peace Comes.

It is said that the French government is planning to convert its corps of army aviators, thousands upon thousands of them, into mail carriers after the war.

There are no technical difficulties in the way, according to the Toronto "Mail and Empire." Airplane engines have been perfected to the highest degree of reliability; their speed has been developed marvelously. Nothing short of thick fog, a violent thunderstorm or a hurricane bordering almost on a tornado now serves to prevent flying—with rarely a casualty from natural causes.

Indeed, the greatest defect in the army aerial service, according to officials in that branch, is overconfidence in what the airplane engine can do. Flights of six and eight and ten hours without replenishing the gasoline supply are now of common occurrence. Mountains can be scaled as if they were mounds under the foot of a Brobdingnagian. Aviators leave the British side of the channel and deposit passengers or messengers on the war front with no more sense of the unusual than if they had taken a steamer from Dover to Boulogne.

The possibilities of mail carrying in difficult regions have not been thoroughly investigated, because only the demands for war efficiency have brought flying up to the point of dependability needed for general service. The French government did establish some postal routes for airmen, but nothing on an extensive scale was adopted. Commercially, the utility of the fullest exploitation. Britain will have scores of thousands of expert aviators, and not many of these will abandon the "sport" which now is serving the British armies so splendidly.

For Others.

Love may be blind, just as they say, but a couple who are in it usually manage to make spectacles of themselves.

Opinions.

Every man's entitled to opinions of his own,
He has a right to think 'em out and make 'em widely known;
But when you feel an impulse to arise and have your say,
You want to choose your time an' keep from gettin' in the way.

When Noah built the ark the skies above were blue and soft,
That's why the wicked neighbors gathered round the place and scoffed.
And Noah said: "If you won't work, why go ahead and play,
But don't stand round conversing when you're simply in the way!"

Another man's opinion is as good as yours or mine,
But when there's work that must be done keep still and fall in line.
There are times when duty calls us to be silent and obey—
Opinions are not worth a cent when they are in the way.

—Washington Star.

What Women Are Doing.

New York city now has a motor brigade composed of women, who will offer their services to the government.

Miss Helen Moore of Seattle, Wash., is probably the only automobile oil saleswoman in the United States.

Over 2,000,000 suffragists in the United States have agreed to take up farming during the course of the war.

The recent appearance of Miss Jeanette Rankin in the senate chamber in Washington marks the first time that a woman has ever been accorded the privilege of the floor of that body.

Mrs. Leo F. F. Wanner has been appointed a special officer in Hempstead, L. I., because of her success in trailing burglars, aided by her trained police dog.

Mrs. E. T. Stotesbury, one of the wealthiest women in Philadelphia, has been appointed to the chairmanship of the war committee of the woman's section of the Navy league.

A bill to let French women vote at municipal elections and serve on municipal councils has been favorably reported by the parliamentary committee on universal suffrage.

Miss Ellen Spencer Mussey, dean of the Washington College of Law, is directing the organization of Washington's 80 woman lawyers into a bar association to fight for the rights of mothers and children.

Since the war began Italian women have been granted more liberties than they ever had in that country.

Around the World.

Waitresses are forbidden in cafes in Mexico City.

Canada bars skilled farmers from army service.

Southern farmers are cutting down cotton acreage for food crops.

One Munich, Germany, father and mother, losing their seven sons in the war, recently killed themselves.

Brazil has postponed for two years redemption of treasury notes issued in 1915.

British Columbia last year exported to the United States 117,864 bushels of potatoes, valued at $113,703.

Otaki Is Japan's Barnum.

For a generation the amusement garden in Tokyo, the "Hanayashiki," has been one of the sights of the Japanese capital. It is situated in the beautiful Asakusa park, which has many natural as well as artistic adornments. Its proprietor, Katsusaburo Otaki, now a millionaire, has decided to retire from the show business, but he has refused all offers for the property unless they come from residents of Tokyo, says East and West. The income of "Hanayashiki" has averaged 600 yen ($300) per day.

The famous temple of Kwannon, goddess of mercy, is in another part of Asakusa park, which is a great holiday resort for citizens of the capital, rich and poor. The population of Tokyo has grown from 857,780 in 1880 to 1,969,833 in 1905.

Lavender Has Faculty of Doing Spectacular Feats

Hurler Obtained by Philadelphia Pitched Many Sensational Games While With the Cubs.

The Phillies secured a good pitcher in Jimmy Lavender, the former Cub twirler. Jimmy won considerable fame as a boxman with the Chicago team. He was a member of the Cubs' pitching staff for five seasons. He is a native of the state of Georgia and is one of the five hurlers who make the state famous for sending out moundsmen of class. Nap Rucker, Henry Douglas, Fred Toney and J. Erskine Mayer are the others.

Lavender was a long time coming to his own, as his five seasons' schooling in the minors would indicate. His first trial was with the Augusta club of the South Atlantic league in 1906. However, his first real job was with the Danville club of the Virginia league, in 1907. From this bush he was extracted by Connie Mack. Manager Mack took Lavender on for a trial in the spring of 1908, but released him optionally to the Holyoke club of the Connecticut Valley league.

At the close of 1908 Lavender was recalled by the Athletic management and released to the Providence club of the big International league, where

Jimmie Lavender.

he was compelled to linger three seasons. While with Providence the "Montezuma Wonder" pitched some splendid ball, notably his feat of shutting out the Rochester team in both games of a double-header that he pitched against them on September 5, 1909.

Purchased by the Chicago club of the National league, in the fall of 1911, Lavender began operations in the big league in the spring of 1912, and his first season was a decided success. Jimmy always had the delightful faculty of bursting into the sensational or doing the unexpected when least expected.

One day, back in 1912, James proceeded to clip the wings of a certain Richard de Marquis Marquard of the New York Giants, who had been soaring through the old National at an amazing pace, having won 19 straight games.

Previous to this mighty feat Lavender had qualified for the job of pitching three consecutive runless games, and, although a recruit, Manager Chance considered him the proper selection. Of the many sensational pitching feats credited to Lavender his no-hit, no-run game against the New York Giants on August 31, 1915, was the masterpiece of his career.

CALOMEL SELDOM SOLD HERE NOW

Nasty drug salivates, makes you sick and you lose a day's work.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.—Adv.

Six Cities One Should See.

There are at least six cities on this continent which everyone should see, says Julian Street in Collier's. Everyone should see New York because it is the largest city in the world, and because it combines the magnificence, the wonder, the beauty, the sordidness and the shame of a great metropolis; everyone should see San Francisco because it is so vivid, so alive, so golden; everyone should see Washington, the clean, white splendor of which is like the embodiment of a national dream; everyone should see the old gray granite city of Quebec piled on its hill above the river like some fortified town in France; everyone should see the sweet and aristocratic city of Charleston, which suggests a museum of tradition and early American elegance, and of course everyone should see New Orleans.

Ceilings.

Ceilings of an ordinary country or town house should be treated with great discretion. This work should never be trusted to a painter who will insist on some stenciled design for which he has a partiality. When a low ceiling is so treated it appears to be lower than it really is. We should not give accentuation to the ordinary ceiling. When the walls and woodwork are of one color the ceiling may be colored just enough to carry the tone away from white. Green walls and white woodwork require a white ceiling. Height is diminished by bringing the ceiling color down to the picture molding. The ceiling can then be finished with a wash or covered with paper. Flowered paper is sometimes used in such cases.—Exchange.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.—Adv.

Insomnia Only a Habit.

One of the reasons why insomnia is so much dreaded is that it is wrongly conceived by many of the laity to be a disease. There is no such disease and in its simple form, where there is no positive disease in the background, it is merely a bad cell habit, kept alive by some fault in the manner of living, some breach of brain discipline, or some disturbance in the functions of the body that results in insistent messages being sent to the brain centers during sleep or while we are trying to sleep. Trying to sleep is a pathetic and futile task, and much better results usually can be obtained by not trying to sleep.—World's Work.

After the Movies Murine is for Tired Eyes. Red Eyes—Sore Eyes—Granulated Eyelids. Rests—Refreshes—Restores. Murine is a Favorite Treatment for Eyes that feel dry and smart. Give your Eyes as much of your loving care as your Teeth and with the same regularity. CARE FOR THEM. YOU CANNOT BUY NEW EYES! Sold at Drug and Optical Stores or by Mail. Ask Murine Eye Remedy Co., Chicago, for Free Book

Proof Positive.

"Am I really the only man you ever loved?"

"Of course you are. Why are you so persistent in asking me? None of the others ever did it."

Getting the News.

"Why do you encourage that incessant talker, Mrs. Gaddy, to come here?"

"Well, I save that much on subscription to a daily newspaper."

LAND FOR SALE—In Kern County, California. 20 acres fenced, old well. Five miles from Bakersfield, California, near highway. Good alfalfa land or potatoes and onions. Good crop raised on adjoining land. Near good homes and schools. Low price and easy terms to right man. Address M. A. Green, 822 Mission Street, San Francisco, California.

The Song Bird's Moods.

All our birds use what we call their voices, just as we use ours, for the purposes of expression generally, and I am convinced that bird song proper, though oftenest the expression of some phase of the tender passion, is not confined to such expression. In a limited way birds have their lyric and their dramatic moods, their serious and their comic songs, their recitative and their oratorical methods. Bird song has come, it seems to me, in response to a growth of the natural desire for a means of expression. Language is the highest mode of expression, and bird song is a beautiful and witching, but very imperfect, language.—Exchange.

SKIN TORTURES

That Itch, Burn and Scale Quickly Relieved by Cuticura—Trial Free.

It takes about ten minutes to prove that a hot bath with Cuticura Soap followed by gentle applications of Cuticura Ointment will afford relief and point to speedy healment of eczemas, itchings and irritations. They are ideal for all toilet purposes.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. X, Boston. Sold everywhere. —Adv.

How He Knew.

A certain country schoolteacher, in endeavoring to explain to his class what compressed air was, brought his bicycle into the room and leaned it up against the wall.

"Now," he remarked, "under the outer covering of that back wheel there is a hidden force. What is it?"

"Injy rubber!" said one smart youth.

"No; try again."

The boy tried again, as did nearly every member of the class, but without success.

At last one of the youngsters, who had been making a close inspection of the machine, turned on the teacher with a beaming face.

"I have it!" he exclaimed. "It's wind—just wind!"

After commending the youngster, the teacher asked how he discovered the "hidden force."

"Why," was the astounding reply, "I've just stuck my knife in to see!"—London Answers.

Strong Hint.

"Have you an extensive plant in your town to interest an enterprising stranger?"

"Yes, we have. There's the town cemetery."

DON'T GET RUN DOWN,

Weak and miserable. If you have Kidney or Bladder trouble, Headache, Backache, Dizziness, Nervousness, and feel tired all over, get a package of MOTHER GRAY'S AROMATIC LEAF. It never fails. Sold by all Druggists or sent by mail for 50c. Sample sent FREE. Address, The Mother Gray Co., Le Roy, N. Y. —Adv.

Characters of "Macbeth."

The names of some of the leading characters in the play of "Macbeth" were borne by real persons who figured in Scotch history, but the characters themselves and the events of the play are imaginary. Macbeth was a Scottish king and Macduff was a Scottish nobleman of the middle ages. History states that Macbeth slew Duncan in 1039 because he had usurped the throne to which Macbeth had the better claim. But the circumstances of the slaying were entirely different from those described by Shakespeare with large poetic license. Banquo has a Scotch sound, but no person of that name figures in Scotch history and Shakespeare seems to have created him mainly in order to name a ghost. In the play he is killed by order of Macbeth and in one of the most powerful scenes of the play his ghost appears at a banquet, visible only to Macbeth, and terrifying him while unseen by the other banqueters.

A Mistake Somewhere.

Trombone of Village Band—What do we play next, Si?

Si—Sousa's "Grand March."

Trombone—Gosh all hemlock! I jest played that.—Judge.

Methodist Church Notes

Regular Sunday Services at 11:00 a. m. and 7:30 p. m.

A. H. Briggs will represent the interests of the Anti-Saloon League at the morning service.

S. S. at 9:45 a. m., and E. L. at 6:30 p. m.

Card of Thanks

We wish to express our sincere thanks to our friends who so kindly assisted during our late bereavement.

W. W. Dunham and family.

NOTICE

We manufacture our own Ice Cream and Ices from pure sweet milk and cream, and fresh crushed fruits.

Ice cream Soda Our Specialty.

MRS. J. A. KELLEY.

Reynolds-Stanford

Gertrude A. Reynolds and Walter Stanford were quietly married at one o'clock Saturday afternoon by the Rev. G. E. Atkinson who remained over a day for the ceremony. Mr. and Mrs. Stanford will be in San Francisco for several weeks after which they will return here for a short time.

Mrs. Stanford is well known here and her friends extend her best wishes.

Do It Yourself.

Hokus—"Do it yourself" is my motto. Pokus—That's right. Don't let others make a fool of you.—Town Topics.

A Dog's Age.

The age of dogs ranges from twelve to fourteen years when they receive proper care.

Over-Subscribe 50 per cent

The local publicity committee of the Liberty Bond issue has been made a permanent organization and owing to the recent activities many compliments were showered on it for its efficient work. In its eleventh hour drive the allotment of $30,000 was over subscribed to $45,000. One of the most commendable features of Campbell's part in the big issue is that so many desired to have a part in it, 273 having subscribed. Of this amount 229 took the 50S and 100S, leaving but 44 to subscribe for larger denominations.

F. G. Wells Badly Injured

A very serious accident occurred at the Island farm last Friday when F. G. Wells, proprietor, was kicked by a young colt and dangerously injured

Mr. Wells had gone to the field where his men were working and where they were having trouble with a team. He rode horseback out to the field and there was a colt with the horses in the field which was loose. In riding up to the colt it became ferocious toward the horse Mr. Wells was riding and turned to kick it. Instead of kicking the horse it struck Mr. Wells in the bowels and opened considerable of a hole in the intestines.

He was taken to the hospital in Salt Lake that evening and operated upon. Latest reports are encouraging and the M. D. in charge says, with good luck Mr. Wells will pull thru and be able to leave the hospital in about a month. He was accompanied to the hospital by Mrs. Wells.—*Delta News.*

(Mr. Wells was a former resident on Payne avenue near Campbell and the best wishes for his rapid recovery is extended by his host of friends in this community.)

Baccalaureate

At the annual baccalaureate service Sunday evening, the Rev. W. E. Ecklés delivered a very effective sermon on "Mastery thru Ministry," the only true and lasting mastery being accomplished thru work for others.

The music was furnished by the choir assisted by Miss Charlotte Davis who sang "Resignation" by Caro Roma and Mrs. Emily Gard, accompanist. The church was prettily decorated with gaillardia, the class flower, and the class motto "Safe on first, now Score," hung back of the pulpit by the Juniors. The Junior girls acted as ushers.

Joseph Dunham

The funeral services for the late Joseph Dunham were held from the house on Central avenue Monday forenoon, Rev. Robt. Whitaker of Los Gatos officiating.

Mr. Dunham passed away Friday evening after a general decline of several weeks.

The services at Oak Hill cemetery were conducted by the G. A. R. The pall bearers from Campbell were C. N. Cooper, D. W. Waite, J. M. Butts, W. C. McCaughey, A. G. Williams and I. Zion.

The deceased is survived by a son, Henry, of Portage, Wis; a daughter, Mrs. Ida Kramer, at Cold Springs, N. J; and son, William, of Campbell.

Lose Another

The Athletics dropped a game of ball to Los Gatos last Sunday by another close score of 6-5. Our boys had it all their own way until the grand finish when it was placed upon a silver platter and generously donated to the Los Gatos collection. Pierce heaved the winners game but his team mates were not there in the pinches so he had to take a defeat.

Pitcher Grieb, of Palo Alto, the big "whiff artist", has been signed by Mgr. Bradford, Pierce going back to his old job at the initial Sack.

The boys do not play Sunday, The "Mutuals" of San Jose cancelling last night. The Winninger club of San Jose broke up and dropped out of the City League and the Mutual Biscuits took their franchise.

Getting Ready

The J. C. Ainsley Packing Co. has made many alterations and improvements in the various departments of the cannery for the convenience of its help and the facility of handling fruit.

Plans are being made for a good season's pack and help is already registering for the steady season which will begin early in July.

At present a quantity of cherries is being canned for the fruit salad pack which will be done late in the season.

The local Red Cross auxiliary will hold a business meeting Wednesday at 1 o'clock at the work rooms.

Local and Personal

Mr. J. Winnie of Honolulu was a guest at the J. D. Sawyer home Wednesday.

Fresh Capitola strawberries and raspberries today, Friday, at 3:30 at J. A. Kelley's.

Chas. White and Frank Mendel are home from the Gazos for a few days this week.

Miss Ruth Hayes has resigned her position at Grants Pass, Ore., to accept one in Oakland.

J. B. Gard and the Misses Pannell spent Wednesday at Santa Cruz with the Claude Gard family.

Mr. and Mrs. F. M. Righter will go to the Yosemite Saturday to be the guests of their son, George, and wife.

Mabel Pardee, daughter of Mr. and Mrs. J. J. Pardee, is ill with pneumonia and the sympathy of friends is extended her parents.

The J. D. Sawyer family will go to Oakdale Saturday to attend the wedding of their son and brother, Roy, to Miss Myrtle Leitch.

Mr. and Mrs. Warren McKenzie went to Ben Lomond Tuesday for a two weeks outing, Warren taking his vacation at this time.

Wanted: Peaches and tomatoes at California Canners Co. in Campbell. Also help wanted for a long season. Register with P. B. Payne at once.

Mrs. C. S. Stoller and daughters are spending a couple of weeks at the Santa Cruz sea side. Mrs. R. G. Archibald joined them Tuesday for the remainder of the week.

The commencement exercises of the C. U. H. S. will be held this, Friday, evening at the new auditorium at 8 o'clock. Hon. Herbert C. Jones will deliver the address of the evening.

Warren Macy, a member of the 1910 class of the high school, was married last week to Miss Snow at her home in in Oregon. They are now spending their honeymoon at Santa Cruz before going to their home at Merced where Mr. Macy is engaged in farming.

Miss Elma L. Hussey and Alien D. Beardsley were quietly married by the Rev. Evans at the Christian church pastor's study in San Jose Wednesday afternoon only the families of the bride and groom being present. After the ceremony the happy couple left for San Francisco where they will remain till about the first of July when they will go to their new home at Merced. The best wishes of their friends go with them.

The local W. C. T. U. will give an entertainment and social on the evening of Friday, June 29, at the Grammar school. After the program, which will be the best of our local talent, ice cream will be served at artistic booths in the court. The proceeds will go toward a fund which is being made up to send a California W. C. T. U. ambulance to the front. Admission only ten cents, so come one, come all and fill the auditorium. The cause is a worthy one.

J. E. Palmer met with an accident Wednesday from which he fortunately escaped with minor injuries. While crossing a street on his motorcycle he was hit by an electric car, severely gashing one knee and painfully bruising his body in several places. The doctor says that he will be confined to his bed for about two weeks. Campbell friends extend their wishes for a full and speedy recovery.

Alumni Reception

The annual re-union of the C. U. H S. Alumni and reception to the Seniors '17 was a most enjoyable affair held at the home of Mr. and Mrs. J. F. Duncan.

The party passed the evening in amusements, and conversation of old time incidents, members gathering in the house, on the lawn and in the garage, each place having its, (his and her) special attraction.

At a short formal program Miss Charlotte Davis sang two pretty solos. "Chrysanthemums" and "Mammy's Little Coal Black Rose" which were greatly enjoyed.

Miss Marjorie Duncan, as a dashing young Romeo, with his flowing plume and trappings, committed suicide by drinking cold poison from a large orchard pail. Miss Alice Duncan, garbed in a large bath robe stuffed with pillows, was the dainty, winsome Juliet. Both these young ladies were in black-face and proved worthy rivals to the Firemen Minstrels.

The "Toy Shop" by Marie Bohrman assisted by the "mechanical" dolls, Violet Saunders as the French doll, Bernice Lloyd as the Rag doll and Mrs. Roy Archibald as the Indian doll, added much to the gaiety of the occasion.

The officers elected for the coming year are: President, Dr. E. A. Abbot; vice-president, Lile Price; secretary-treasurer, Miss Marion Duncan.

Among the out-of-town members present were Mr. and Mrs. Easton Carter of Palo Alto, Mr. and Mrs. E. A. Abbott of San Jose, and Howard Bean of Stockton.

At the close of the social hour ice-cream and wafers were served, after which the clan departed to be called together a year hence by the president.

C. U. H. S. Class Night

The Class of '17, C. U. H. S., held its class night exercises Tuesday evening in the Grammar school auditorium before a large audience.

Edgar Kennedy gave the opening number, the President's Address. He spoke briefly of the activities of the class and said that its chief handicap in social affairs was the "lack of girls."

The annual feature of these occasions, "Then and Now," being the childish pictures and the present ones, shown by Mr. Snow, elicited the usual guessing with many humorous results.

The "Class Will" written by Lorin Scott and Edgar Kennedy was read by the former. It was a clever production, the bequests being rather unusual and preamble a contrast to the usual style

The Prophecy was given in the form of a two scene playlet.

Time—Future

Act 1—Scene 1—being a street in "Alviso-by-the-Slough, before the headquarters of Alexander.

Scene 2. The interior of the seer's pariors, where all the members of the class foregathered to consult the wizard.

Contrary to the usual custom this class evidently has a very poor opinion of its members, as they were all very much on the disreputable order, an organ grinder, hobos, slatternly old maids, vegetable venders, copettes, an inmate of an almshouse and other "worthy" characters completing the class roster.

After the reading of the poem by Delpha Weisendanger, of which Alice Toll was the author, the curtain rose on the assembled class which united in the "Farewell Song."

The Senior Oriole contains several new features, among them a directory of the Alumni of the school.

Fine Work Exhibit

A very complete and attractive display of the work of several departments of the High school and Grammar school was made last week in the bank building which Mr. Topping has rented, but very kindly permitted the use of.

The manual training students exhibited several desks, magazine racks and several large tables made for the new grammar school.

The art classes of the high school had some very good charcoal work, attractive "Art Note Books", hand bound, leather desk sets, etc. The Botany class showed some very good herbariums in dainty covers.

Much interest was manifested in the results achieved in the new Domestic Science Department, both in Sewing and Cooking. This being the first year for sewing in the High school, only very simple dress-making was undertaken, after a careful study of the various stitches, making of buttonholes and finishing of undergarments. The amount and quality of work done was remarkable and elicited much commendation.

The work done by the Cooking Class was of a very practical nature, including a comparison of the amount of various foods to produce equal calories, one table showing "Meat Substitutes", another articles made from cereals other than wheat, well balanced meals at ten cents a person, and a dining table correctly set with a "first course" luncheon.

The teachers who had charge of the work and the exhibits, Miss Marjorie Sprecher, Domestic Science; Miss Kittie Johnson, Art; Miss Angeline Weaver, Botany; and Mr. P. Arnott, Manual Training, are entitled to great praise for the work accomplished.

Choice W. L. breeding hens $10 per doz. ALEXANDER, 48 Dillon ave.

The W. C. T. U. will meet with Mrs. Elizabeth Adams, Dillon avenue Wednesday, June 27th, 2:30 P. M.

Fire Chief Lanphear requests a general clean-up of all dry grass and refuse thereby reducing the fire risk. Do your duty.

The forest fire is not endangering the Campbell Redwood Co's. timber and did not originate on its ground. The crew of seventy men were sent to assist in fighting the fire in the vicinity of the Big Basin which is still in danger via the Waddell canyon where the fire is still raging.

The consolidation of schools election held in the surrounding districts resulted in a lost cause owing to the short time for the education campaign. The results by districts follows. Campbell, 95 for 5 against: Cambrian, 35 for 58 against; Hamilton, 35 for 21 against; Moreland, 40 for 45 against; San Tomas, 23 for 27 against.

Campbell will lose two of her grammar school faculty the coming year. Miss Matie Sawyer has resigned to accept a better position in the Willow Glen school where she will have only the sixth grade. Miss Phebe Farley also leaves for a more advantageous position at Gooding, Idaho. We regret the loss of these efficient teachers but wish them all success in their new fields.

The W. W. Powell family are taking in the interesting sights about the valley this week preparatory to leaving for their new home at Durham. The little girls entertained a party of their friends at a farewell at their home Monday afternoon.

SUMMONS

In the Superior Court of the State of California, in and for the County of Santa Clara.

Charles T. Boots, Plaintiff
— vs —
Julia M. DeRochebrune, Geo. B. McKee, Emilie C. Popp, Gertrude W. Popp, Louis T. Lenzen, Henry J. Lion, Emile M. Lion, Christina A. Miano, Josephine Volk, May Philson, Jos. A. Desimone, Lewis P. Desimone, Anna M. Dougherty, Madeline Cox, Elsie Rhien, Jennie Brown, and Jos. G. Reul; also all other persons unknown, claiming any right, title, estate, lien, or interest in the real property described in the complaint adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto, Defendants)

SUMMONS

Action brought in the Superior Court of the state of California, in and for the County of Santa Clara and the Complaint filed in the office of the Clerk of said Santa Clara County.

The people of the State of California send greeting to Julia M. DeRochebrune, Geo. B. McKee, Emilie C. Popp, Gertrude W. Popp, Louis T. Lenzen, Henry J. Lion, Emile M. Lion, Christina A. Miano, Josephine Volk, May Philson, Jos. A. Desimone, Lewis P. Desimone, Anna M. Dougherty, Madeline Cox, Elsie Rhien, Jennie Brown, and Jos G. Reul; also all other persons unknown, claiming any right, title, estate, lien, or interest in the real property described in the complaint adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto, Defendants:

You are hereby directed to appear and answer the complaint in an action, entitled as above, brought against you in the Superior Court, of the State of California, in and for the County of Santa Clara, within ten days after service on you of this summons, if served within this county, or within thirty days if served elsewhere.

The object of the above entitled action is to obtain a judgment and decree of said court that the plaintiff, Charles T. Boots, is the owner in fee, of all that certain real property situate in the City of San Jose, County of Santa Clara, State of California, described as follows, to-wit:

Commencing at a point on the Westerly line of Third Street 2.5 feet Northerly from the dividing line between Lots One (1) and Four (4) of Block One (1), Range Three [3] South of the Baseline of the Original Survey of the City of San Jose, California, and running thence Westerly at right angles to Third street and parallel to San Fernando street along the center line of a brick wall 130.78 feet to the Westerly side of a 13 inch brick wall; thence Southerly along the Westerly side of said wall and parallel to Third Street 48.44 feet to a point; thence Westerly and parallel to San Fernando Street 7.06 feet to the line between Lots 3 and 4 of the aforesaid Block and Range; thence along the Westerly line of Lot 4 Southerly 2.5 feet to a point; thence Easterly at right angles and parallel to San Fernando Street 7.06 feet to the corner of a brick wall; thence continuing along the Southerly side of said brick wall 137.94 feet to the Westerly line of Third Street; thence Northerly along the Westerly line of Third Street 50.94 feet to the place of commencement.

And also to obtain the further judgment and decree of said Court that all the adverse claims made by you, or either of you, are wholly without merit and absolutely void; that plaintiff is the owner in fee of said property; and that you, and each of you, be forever barred and restrained from claiming any or asserting any claims of any nature relating to said property, or any part thereof, adverse to the plaintiff; and for all costs herein expended.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will apply to the Court for the relief demanded in said Complaint.

Given under my hand and Seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 4th day of April, A.D. 1917.
